

## MDA CONVENTION PRESENTATION

### Abstract

#### **DO MARKETS KEEP YOU UP AT NIGHT?**

Markets are unpredictable. Volatility is inevitable. And sometimes it feels like things are out of your control... which can often lead to restless sleep. In this presentation, you will hear about core investment principles to help you get the sound sleep you deserve.

#### Three key learning objectives:

**Keep Emotions Out of Investment Decisions** – Everyone wants to “buy low, sell high,” but if you let your emotions get in the way, you’ll likely do just the opposite.

**Rely on Professional Advice** – Learn the advantages of working with a professional financial planner who can help you achieve the financial flexibility and freedom you need to enjoy life to the fullest.

**Choose the Right Investments** – Why do some investment funds consistently perform better over the long term? See how world-class fund managers provide an advantage.
