

TOPIC: Implant Techniques

Abstract: small diameter implants and their versatility, as well as regular diameter implants placed with non flap, non- submerged, supra crestal technique

Learning Objectives:

Objective 1: Understand the difference in small diameter and regular diameter implants in techniques for placement

Objective 2: Review the supra crestal technique in regular diameter implants .

Objective 3: Learn the stepwise sequences toward excellence in final results.

BIO - DR. BRUCE BOHUNICKY (DMD)

Dr. Bruce Bohunicky rose as a graduate of the University of Manitoba's Faculty of Dentistry, class of '84. In 1989 he co-founded Kildonan Crossing Dental Centre, which has grown every year since, including a considerable expansion just 5 years ago. Dr. Bohunicky provides a full range of dental services, with a particular passion in orthodontics & implant dentistry.

After being thoroughly intimidated with the complexity of implant surgery & prosthetics, Dr. Bohunicky sought a simpler & less invasive method, placing his very first implant in 1998...with a no-flap circular incision and non-submerged healing. Throughout the next 2 decades, his confidence grew with each patient recall, seeing hard & soft tissues and prosthetics being remarkably stable. From attending lectures & presentations, to delivering multi-day training courses himself, Dr. Bohunicky is proud to offer his patients a much more streamlined way of delivering implant dentistry. He was published in Oral Health in August 2005 on this precise topic.

TOPIC: Dry Mouth Appliances

BIO - DR. AMERICO FERNANDES (DMD)

Dr. Americo Fernandes

Family Practice...Winnipeg, Manitoba

Graduate...University of Manitoba, Faculty of Dentistry, 1984

Co-Founder... BASIC Dental Implant Systems, Inc.

Co-Founder...Ossotanium.com

Developer...Americo Dry Mouth Night Guard Therapy

Dr. Fernandes has a special interest in Research and Development in methods, materials and technologies that contribute to the simplicity, efficiency and cost reductions to the practice Dentistry.

Dr. Fernandes holds many patents in the field of Dentistry
