

TOPIC: Digital Communication in Multi-Disciplinary Dentistry

Abstract: Outstanding final results can be realized in multi-disciplinary dentistry with excellent communication between practitioners with digital technology

Learning Objectives:

Objective 1: Understand the need for excellent communication and visualization of complex cases.

Objective 2: Be aware of the tools available for digital communication.

Objective 3: Learn the stepwise sequences toward excellence in final results.

**Bio: Dr. R. Bruce McFarlane: Curriculum Vitae**  
**DMD BSc(Dent) MCID FRCD(C)**
