

**TOPIC: PAEDIATRIC DENTISTRY FOR THE GENERAL PRACTITIONER**

**Abstract:** This course will give you practical points on how to treat your little patients well. Restorative treatment options and their clinical indications will be presented. Indications and applications of a variety of dental materials and techniques in both anterior and posterior dentition will be addressed. You've heard it before - treat your kids well and your practice will soar!

Learning Objectives:

Objective 1: Understand the strengths and indications of different categories of paediatric restorative materials.

Objective 2: Learn efficient reliable paediatric restorative techniques.

Objective 3: . Effectively treat anterior and posterior primary dentition

**Bio:** Dr. Cohn is a general dentist, devoted solely to the practice of dentistry for children. She maintains a private practice at Kids Dental in Winnipeg, Canada. She is proud to be a member of the American Academy of Pediatric Dentistry Speakers Bureau, Catapult Education Speakers Bureau, Pierre Fauchard Academy, and a cofounder of Women's Dental Network. Dr. Cohn has been named as Dentistry Today's Leader in Continuing Education multiple years in a row. She has published several articles, and webinars and enjoys lecturing on all aspects of children's dentistry for the general practitioner both nationally and internationally.
